[peter.ramsing@mac.com](mailto:peter.ramsing@mac.com) | (541) 231-3620 | Portland, Oregon

I'm a web developer with 3 years experience successfully delivering results for small to medium sized companies. Skilled at developing complete web applications from scratch and integrating small apps with larger legacy systems, I deliver quality and maintainable code quickly and consistently.

I have effectively taken large legacy table based sites and migrated them to responsive design using modern tooling while working with product owners to stay under-budget and on-time working with extremely tight deadlines.

As a maintainer of the largest grid framework for PostCSS, LostGrid, I also have had the privilege of working with and learning from amazing developers from all over the globe every single day. I am a strong team player and am experienced in-office and remote.

## Key Skills

- Extremely skilled in producing maintainable CSS using vanilla or pre-processors.
- Outstanding ability to write vanilla JavaScript or using libraries such as jQuery, and writing ES2015 along with writing against linters and TDD.
- Well versed in modern HTML with the ability to write extremely maintainable markup.
- Ability to write Ember.JS and integrate it within non-Ember codebases.
- Experienced with leading and participating in both Waterfall and Agile methodologies.
- Skilled at keeping cool under stressful situations learned from my many outage recovery war stories.
  - Proven skills in reducing outages situations and improving reliability of codebases using improved planning, linting, test-driven development, and overall quality improvements.
- Open to rapid and fast paced changes with constantly evolving business targets and web toolsets.

## Languages and Tools

HTML

Pug (Jade), Jekyll/Liquid, Handlebars

CSS

SCSS, Less, Stylus, PostCSS, Bootstrap, Foundation, Susy

Javascript

ES2015, jQuery, Ember.JS, Angular 1.x Mocha

Tools

Jenkins CI, Travis CI, Git, GitHub, BitBucket, GitLab, Gulp, npm

## Work Experience

### Veelo, Inc

October 2016 - Current

Software Developer - Portland, Oregon | *partial remote*

- Develops performant CSS with the use of a pattern library to support our Angular app.
- Engages in the Agile methodology with our team participating in stand-ups, planning meetings, and retrospectives.
- Writes test-driven Angular code based on our Angular style-guide.
- Maintains and creates documentation for our internal teams.

### Web and Business Consulting

August 2016 - Current

Self-Employed - On and Offsite

- Develops sites from the ground up including SEO research, design, development, and business strategies.
- Works with startups to get a great start with maintainable backbones to their web apps.
- Delivers sound and experienced advice in working within legacy systems to migrate to new tooling and modern responsive design.
- Consistently delivers under-budget and on-time.

### Core Maintainer - Open Source project

December 2015 - Current

LostGrid - Global team

- Engages with active support and bug fixing.
- Continues new feature development adding value to teams all around the world.
- Increased usage from several thousand downloads a month to 20k-33k.
- Supports developers from all over the world to help use framework and progress it.
- Refactored to follow best practices using ESLint.

### Web Development/Frontend Lead

April 2015 - September 2016

NaturalPoint - Corvallis, Oregon | *transitioned to remote*

- Develops maintainable CSS3/SCSS, JavaScript, and HTML5.
- Develops Ember for OptiTrack site.
- Manages legacy code alongside existing marketing needs for new features.
- Works with designer to bring their Sketch designs to production.
- Supports local LAPP stack on virtual development environments.
- Introduced TDD to our JS and SCSS modules.

## **Director of Mobile & Application Development**

**August 2014 - June 2015**
